Taste the forest.

silva

– lat. forest –

Inspired by the forest: at the fine dining restaurant silva, we celebrate the deep connection between the Forsthofgut and the forest – a bond that has shaped this former forestry estate since its inception. At silva, modern culinary art meets old traditions: smoking, fermenting, preserving, and intensifying flavours. The result is a unique and authentic dining experience. Fine dining that transforms the taste and smell of the forest into exceptional cuisine, touching all the senses.

Taste the forest.

– Forest & Meadow –

The diversity that the forest offers is something we aim to embrace. In line with the credo "Taste the forest", we bring the finest gifts of the forest to the plate and the glass. The carefully curated drink pairings elevate every menu into a unique experience, with a particular focus on one-of-a-kind, alcohol-free creations.

Each day, two exquisite options are available: the classic Forest menu and the vegetarian Meadow menu. Naturally, all dishes can be combined to create a personalised tasting experience, complemented by Mr. Helfrich's personal recommendations.

The forest and the Forsthofgut

The Forsthofgut has always been closely connected to the forest: in its early days as a forestry estate, this natural space was a vital livelihood for our ancestors. Today, the forest is our sanctuary, our greatest source of inspiration, and continues to play a central role in our nature hotel. Our goal is to preserve the forest for future generations. We aim to share our passion for its incredible versatility and inspire others to appreciate it as we do. This dedication is aligned with our core focus at the Forsthofgut: nature and environmental protection, a commitment we uphold through numerous sustainability projects. With *silva*, we pay culinary tribute to the forest and would be delighted to have you join us in this endeavour.
